

Tutorial 4

This Tutorial helps you to prepare for the Peer to Peer Chat Implementation Assignment.

Reading from and writing to a socket

<https://docs.oracle.com/javase/tutorial/networking/sockets/readingWriting.html>

A simple chat app written in Java with sockets;

<http://www.coderpanda.com/chat-application-in-java/>

Here is an example of java code used for the client/sever communication peer –To - peer.
This presents a simple transfer between peers/clients.

<http://mrbool.com/file-transfer-between-2-computers-with-java/24516>

I also uploaded on CSMoodle (Additional Material part) a paper which explains in detail
Peer-to-Peer networks for content/info sharing.

Good Luck!
